INOX AISI 316L

L'armonia tra gli spazi umani e gli elementi naturali. Una forma che nasce da un elegante equilibrio di linee morbide. Design essenziale per ambienti eleganti e contemporanei.

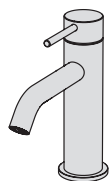

Harmony between human spaces and natural elements. A form born from an elegant balance of soft lines. Essential design for elegant and contemporary environments.

Harmonie zwischen menschengerechten Umgebungen und natürlichen Elementen. Eine Form, die aus dem eleganten Gleichgewicht weicher Linien entsteht. Unverzichtbares Design für elegante und moderne Räume.

L'armonie entre les espaces humains et les éléments naturels. Une forme née d'un équilibre élégant de lignes douces. Un design essentiel pour les environnements raffinés et contemporains.

Sistemi lavabo con fotocellula / Washbasin systems with sensor Waschtischsysteme mit Fotozelle / Systèmes de lavabos avec photocellule

Le bocche di erogazione con fotocellula sono studiate per ambienti ad alta affluenza di pubblico, con utilizzo limitato all'acqua fredda. **Nel caso ci fosse invece la necessità di pre-settare la temperatura e il flusso dell'acqua è necessario abbinare il miscelatore sottolavabo DXFO.**

Spouts with sensor are designed for high-traffic environments, with their use limited to cold water. **In case there is a need to pre-set the water temperature and flow, it is necessary to combine them with DXFO under-basin mixer.**

Die Ausläufe mit Fotozelle sind für stark frequentierte Umgebungen konzipiert, in denen nur kaltes Wasser verwendet wird. **Wenn hingegen die Wassertemperatur und der Wasserdurchfluss voreingestellt werden müssen, ist es notwendig, sie mit der DXFO Untertischbatterie zu kombinieren.**

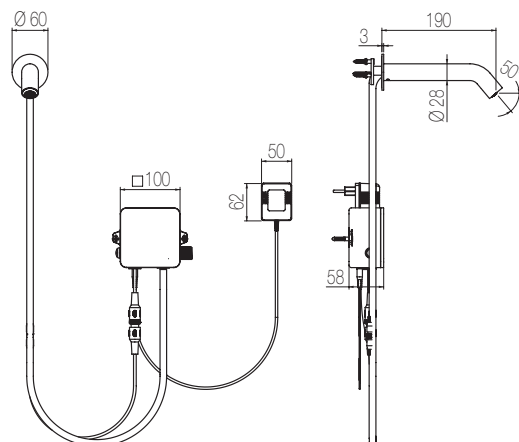

Les becs avec photocellules sont conçus pour des lieux à forte affluence, avec une utilisation limitée à l'eau froide. **Si, en revanche, il est nécessaire de prérégler la température et le débit de l'eau, il faut prévoir le mitigeur sous lavabo DXFO.**
